

Pan-European tolling services for all vehicles

tolltickets is a 100% owned subsidiary of Kapsch TrafficCom providing interoperable, pan-European tolling services to both light and heavy goods vehicles.

Complete European coverage:

- Stress free and seamless travel for frequent, holiday and business travellers across Europe
- Extensive coverage for light and heavy vehicles
- Only major toll service provider with both on-board unit and vignette based services
- Fully independent EETS provider with no direct to user business
- VAT registered in all major tolling domains
- Consolidated invoicing in a single currency
- All on-board units developed and manufactured by Kapsch

European Electronic Toll Service (EETS) registered provider

In February 2018, tolltickets became a registered EETS provider in Germany.

tolltickets offers services in Austria, Bulgaria, Denmark, Sweden, Norway, Germany, Hungary, Poland, Spain and Portugal, with Belgium added in early 2022 and France, Switzerland and Italy due soon after.

The tolltickets EETS offer includes:

- Fully white labelled solution for HGVs
- Technical support for all EETS partners
- No direct competition for customers; tolltickets does not address fleets directly
- Competitive pricing models
- Flexible models for partners new to transaction-based services
- Standard APIs and interfaces for a quick and easy IT integration

Europe's most extensive light vehicle coverage

tolltickets offers the broadest range of tolling services in Europe, including on-board unit and both traditional and digital vignette services.

Light vehicle customers are able to travel to countries including Austria, Bulgaria, Czech Republic, Denmark, France, Hungary, Italy, Norway, Portugal, Slovenia, Spain, Sweden and Switzerland.

tolltickets' light vehicle tolling services include:

- Fully white labelled solution
- Competitive pricing models
- Flexible approach to integration with partners from across the mobility services ecosystem
- Co-branded website option for lighter integrations
- Direct experience with over 500,000 light vehicle customers

In November 2020, tolltickets announced a first of its kind partnership with Ford Motor Company, one of the world's largest automakers. Since this launch, users of Ford's market leading FordPass and FordPass Pro apps have been able to gain exclusive access to tolltickets services via a co-branded web portal.

tolltickets added value:

- Exclusive focus on white labelled EETS solutions for HGVs
- Fully independent EETS and light vehicle platform
- Flexible approach to new partnerships with the ability to cover all components of the value chain
Only major toll service provider to offer full suite of vignette and OBU based services
- Openness to integration with partners from across the mobility services ecosystem
- Proven experience working with large companies in non-tolling areas, such as automakers and telematics service providers
