# A modern toll payment app for North America

Uproad provides flexible toll payment solutions for frequent and infrequent drivers across the continental US with Canada due to be added soon.

As a direct replacement for existing transponders, Uproad provides a nationwide and fully interoperable solution to all Android and iOS smartphone users.

Uproad can also be integrated into existing mobility services either as a consumer facing brand or fully white labelled via simple APIs and integrations.

Uproad offers:

- Route calculator with tolled and non-tolled routes included
- Real-time, GPS enabled toll alerts
- Best in class account management

- Toll Alert & Payment Toll
- Alert Only
- Coming Soon

Take on toll roads with confidence!
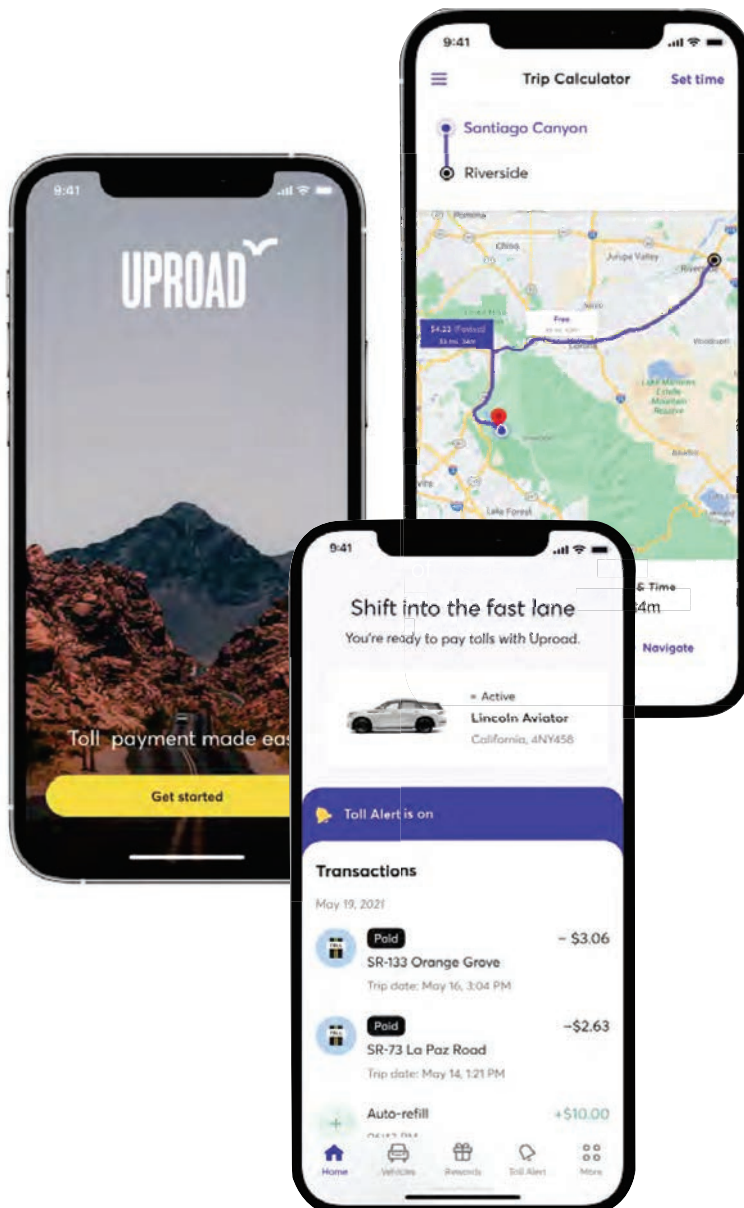

Route & toll rate calculator

- Plan trips and understand toll costs ahead of time with Uproad's industry leading route cost calculator

- Stay informed with a clear view of tolled and non-tolled routes

Real-time toll alerts

- Receive real time, GPS enabled notifications whenever a toll point is passed

- See an immediate estimate of the specific toll cost for each vehicle

Account Management

- Quickly and easily add new vehicles

- Access full account history, with a clear view of all paid tolls

- Add up to 10 vehicles via a single account

Providing benefits for users and toll agencies

- Reduced operational costs though the transfer of customer support to Uproad

- Reduced financial risk via guaranteed payments

- Modern and innovative form of service delivery

- Enhanced overall user experience

Uproad as a consumer facing app:

- Easy to use app with market leading design and user experience

- Flexible and non-binding payment solutions for both frequent and in-frequent drivers

- Route planning functionality with tolled and non-tolled routes and estimated pricing

- Real-time notifications when a toll point has been crossed

- Clear and easy to use customer dashboard containing all past transactions

Benefits for toll agencies:

- Lower operational costs

- Reduced financial risk

- Better customer experience

- Innovative service delivery

  Improved public perception of tolling

Benefits for mobility service providers:

- Integrate tolling as part of a comprehensive mobility services offer

- Cover the total cost of vehicle operation with the inclusion of all toll road payments

- Bring tolling into the vehicle with Uproad's digital and tag-less solution

- Add additional transactions to existing payment platforms
