

Ad hoc release

Kapsch TrafficCom wins major project in the USA.

Kapsch TrafficCom is supplier to Plenary Infrastructure Belle Chasse LLC, a consortium just awarded by the Louisiana Department of Transport and Development with the Belle Chasse Bridge & Tunnel Replacement Public-Private Partnership Project. Kapsch TrafficCom will provide the consortium with tolling technology and operate and maintain the toll system. Implementation activities are scheduled to commence in 2023 followed by 30 years of technical and commercial operations. The project volume for Kapsch TrafficCom is estimated to be more than 100M USD over the 30 year term.

The overall project entails the building of a four-lane bridge to replace the current traffic infrastructure (a bridge and a tunnel). The newly constructed bridge includes a modern all-electronic tolling technology (which does not require toll booths), as part of the first Private, Public, Partnership (P3) project in the state. The awarded consortium will recoup its investment through tolls paid by motorists using the new bridge. The project is scheduled to start in January 2020 and has a total term of approximately 34 years, just over 4 years to build the bridge and 30 years of operations and maintenance.

Kapsch TrafficCom is a provider of intelligent transportation systems in the fields of tolling, traffic management, smart urban mobility, traffic safety and security, and connected vehicles. As a one-stop solutions provider, Kapsch TrafficCom offers end-to-end solutions covering the entire value creation chain of its customers, from components and design to the implementation and operation of systems. The mobility solutions supplied by Kapsch TrafficCom help make road traffic safer and more reliable, efficient, and comfortable in urban areas and on highways while helping to reduce pollution.

Kapsch TrafficCom is an internationally renowned provider of intelligent transportation systems thanks to the many projects it has brought to successful fruition in more than 50 countries around the globe. As part of the Kapsch Group, Kapsch TrafficCom with headquarters in Vienna, has subsidiaries and branches in more than 30 countries. It has been listed in the Prime Market of the Vienna Stock Exchange since 2007 (ticker symbol: KTCG). Kapsch TrafficCom's about 5,000 employees generated revenues of EUR 738 million in fiscal year 2018/19.
