

Biography

Alexander Lewald

Chief Technology Officer (CTO) Kapsch TrafficCom

Alexander Lewald was appointed to the Executive Board of Kapsch TrafficCom in November 2015. As Chief Technology Officer, he is responsible for Research & Development as well as the Solution Centers Tolling, Back Office, Connected Vehicles and Highway & Tunnel Traffic Management.

Function.

> CTO Kapsch TrafficCom AG

Career.

Prior to his current appointment, Alexander Lewald contributed to the launching of new businesses for Kappa IT Ventures, Gilde IT Management, SAP and Parametric Technology Corp (PTC), where he played a key role in restructuring the companies to offer solutions for smart, connected products.

Alexander Lewald holds a degree in electrical engineering from the Technical University of Munich. After graduating, he worked at the DLR Institute of Robotics and System Dynamics of the German Aerospace Center (Deutsches Zentrum für Luft- und Raumfahrt, or DLR) for three years. During this time, he completed his doctorate in the field of system dynamics for multi-axle robots and had the opportunity to deepen his research at the School of Engineering of the Stanford University, Palo Alto, USA.
